

Supervised Consumption Services (SCS)

What is SCS?

Supervised consumption services provide a safe, clean space for a person to use substances under the supervision of a health care professional and to engage in health and social services.

What is OST?

Opioid substitution treatment supplies people who use substances with a prescribed replacement medicine to help relieve symptoms of Opioid Use Disorder.

Benefits to People Who Use Drugs:

Fewer overdose deaths

Reduced sharing of needles

= Less HIV & Hepatitis C transmission

Increased access to services

= Increased use of detox & treatment

Benefits to Community:

Fewer discarded needles

Less public drug use
